

ATCSCC ADVISORY

CARIBBEAN ARRIVAL PROCEDURES FOR ALL AIRCRAFT LANDING IN THE NEW YORK METRO AREA SEPTEMBER 11, 2002 1100Z THRU SEPTEMBER 13, 2002 0000Z

Arrival routing to New York Area Airports will be predicated on the flight's country of registry and the general area of departure. New York area airports include but are not limited to: JFK, EWR, LGA, HPN, FRG, TEB, MMU SWF.

Aircraft registry is divided into two categories: "Foreign" and "United States". Air Canada flights are the only foreign registered flights that are exempt from the foreign category and will be procedurally treated as United States registered flights.

Foreign aircraft Arrival Procedures:

1. Bermuda Area aircraft landing in the New York Area (regardless of specific airport) should coast into domestic U.S. airspace via either:

CHAMP...BERGH JANNA OWENZ CAMRN (Destination)

FLANN...BERGH JANNA OWENZ CAMRN (Destination)

SLATN...BERGH JANNA OWENZ CAMRN (Destination)

2. Puerto Rico (68°W) and airports east landing the New York Area (regardless of specific airport) should coast into Domestic U.S. Airspace file via either

CHAMP...BERGH JANNA OWENZ CAMRN (Destination)

FLANN...BERGH JANNA OWENZ CAMRN (Destination)

SLATN...BERGH JANNA OWENZ CAMRN (Destination)

3. Aircraft departing west of Puerto Rico (68°W) landing in the New York Area (regardless of specific airport) should file via:

GTK A555 ODEAL R511 AZEZU BERGH JANNA OWENZ CAMRN (destination)

4. Aircraft departing Florida landing in the New York Area (regardless of specific airport) should file via:

- a. Over water equipped aircraft HANRI A761 FOGGS R511 AZEZU BERGH JANNA OWENZ CAMRN (destination)

- b. Non-over water equipped aircraft file via inland routing.
